**NOTICE OF UNITED STATES POSTAL SERVICE OF FILING A
FUNCTIONALLY EQUIVALENT GLOBAL EXPEDITED PACKAGE SERVICES 6
NEGOTIATED SERVICE AGREEMENT AND APPLICATION FOR NON-PUBLIC
TREATMENT OF MATERIALS FILED UNDER SEAL**
(August 4, 2016)

In accordance with 39 C.F.R. § 3015.5 and Order No. 3365,¹ the United States Postal Service (Postal Service) hereby gives notice that it is entering into a Global Expedited Package Services (GEPS) 6 contract. Prices and classifications not of general applicability for similar contracts were previously established by the Decision of the Governors of the United States Postal Service on the Establishment of Prices and Classifications for Domestic Competitive Agreements, Outbound International Competitive Agreements, Inbound International Competitive Agreements, and Other Non-Published Competitive Rates, issued March 22, 2011 (Governors' Decision No. 11-6).² Subsequently, GEPS 6 was added to the competitive product list, and the contract filed in Docket No. CP2016-188 serves as the baseline agreement for comparison of functionally equivalent agreements under the GEPS 6 grouping. The Postal Regulatory

² A redacted copy of the Governors' Decision is filed as Attachment 3 to this Notice. See Decision of the Governors of the United States Postal Service on the Establishment of Prices and Classifications for Domestic Competitive Agreements, Outbound International Competitive Agreements, Inbound International Competitive Agreements, and Other Non-Published Competitive Rates (Governors' Decision No. 11-6), March 22, 2011

Commission (Commission) determined that individual GEPS contracts may be included as part of the GEPS 6 product if they meet the requirements of 39 U.S.C. § 3633 and if they are functionally equivalent to the GEPS 6 baseline agreement.³

The contract and supporting documents establishing compliance with 39 U.S.C. § 3633 and 39 C.F.R. § 3015.5 are being filed separately under seal with the Commission. Redacted copies of the contract, a certified statement required by 39 C.F.R. § 3015.5(c)(2) for the contract, and Governors' Decision No. 11-6 are filed as Attachments 1, 2, and 3, respectively. Attachment 4 to this Notice is the Postal Service's Application for Non-public Treatment of materials filed under seal in this docket. A full discussion of the required elements of the application appears in Attachment 4.

I. Background

The first GEPS 6 contract was filed on May 31, 2016.⁴ Subsequently, the Commission reviewed a few GEPS 6 contracts with minor differences that did not affect the contracts' similarity with the cost and market characteristics of the baseline GEPS 6 agreement.⁵

The Postal Service demonstrates below that the agreement that is included with this filing is functionally equivalent to the contract that is the subject of Docket No. CP2016-188. Accordingly, this contract should be included within the GEPS 6 product.

³ PRC Order No. 3365, at 6-7.

⁴ Request of the United States Postal Service to Add Global Expedited Package Services 6 Contracts to the Competitive Products List, and Notice of Filing (Under Seal) of Contract and Application for Non-Public Treatment of Materials Filed Under Seal, Docket Nos. MC2016-149 and CP2016-188, May 31, 2016.

⁵ See PRC Order No. 3366, Order Approving Additional Global Expedited Package Services 6 Negotiated Service Agreement, Docket No. CP2016-189, June 14, 2016; PRC Order No. 3423, Order Approving Additional Global Expedited Package Services 6 Negotiated Service Agreement, Docket No. CP2016-233, July 11, 2016;

II. Identification of the Additional GEPS 6 Contract

The Postal Service believes that this additional GEPS contract fits within the Mail Classification Schedule (MCS) language for the Global Expedited Package Services Contract product, as revised and updated in the most recent draft working copy of the MCS available on the Commission's website.⁶

The effective date of this additional GEPS 6 contract will be established once the Commission completes its review of the agreement. If the effective date of the agreement is the first of the month, the agreement that is the subject of this docket is set to expire one year after its effective date. If the effective date of the agreement is not the first of the month, the agreement is set to expire on the last day of the month in which the effective date falls in the year subsequent to the effective date, unless the agreement is terminated earlier.

III. Functional Equivalency of GEPS 6 Contracts

This GEPS 6 contract is substantially similar to the contract filed in Docket No. CP2016-188. The contract shares similar cost and market characteristics with that contract. In Governors' Decision No. 11-6, the Governors established prices of general applicability for competitive products that meet the criteria of 39 U.S.C. § 3633 and the regulations promulgated thereunder. Therefore, the costs of each contract conform to a common description. In addition, the MCS requires that each GEPS contract must cover its attributable costs. The contract at issue here meets the Governors' criteria and thus exhibits similar cost and market characteristics to the previous GEPS contracts.

⁶ See PRC, (Draft) Mail Classification Schedule, posted January 15, 2016 (with revisions through July 15, 2016), available at <http://www.prc.gov/mail-classification-schedule>.

The functional terms of the contract at issue are the same as those of the contract that is the subject of Docket No. CP2016-188, which serves as the baseline agreement for the GEPS 6 product grouping. The benefits of the contract to the Postal Service are comparable as well. Therefore, the Postal Service submits that the contract is functionally equivalent to the contract that is the subject of CP2016-188 and should be added to the competitive product list as a GEPS 6 contract.

In a concrete sense as well, this GEPS 6 contract shares the same cost and market characteristics as the baseline GEPS 6 contract filed in Docket No. CP2016-188. Customers for GEPS contracts are small- or medium-sized businesses that mail products directly to foreign destinations using Priority Mail Express International, Priority Mail International, or First Class Package International Service. Prices offered under the contracts may differ depending on the volume or postage commitments made by the customers. Prices also may differ depending upon when the agreement is signed, due to the incorporation of updated costing information. These differences, however, do not alter the contracts' functional equivalency. Because the agreement incorporates the same cost attributes and methodology, the relevant characteristics of this GEPS contract is similar, if not the same, as the relevant characteristics of the baseline GEPS 6 contract filed in Docket No. CP2016-188.

Like the contract that is the subject of Docket No. CP2016-188, this contract also fits within the parameters outlined by the Governors' Decision. There are, however, differences between this contract and the contract that is the subject of Docket No. CP2016-188, which include:

- The name and address of the customer in the title and first paragraph of the agreement;
- Revisions to the payment method in Article 2 and the deletion of references to “Option A” and “Option B” throughout the agreement;
- Revisions to the order of definitions in Article 3;
- Revisions to Article 4, which concerns Qualifying Mail;
- Revisions to Article 6, which concerns Non-Qualifying Mail;
- In Article 7, deletion of paragraph (4) and subsequent renumbering and revisions in new paragraphs (5) and (6);
- In Article 9, the combination and revision of Articles 9 and 10, concerning obligations of the Mailer related to postage payment through GSS or a PC Postage Provider, which causes subsequent articles to be renumbered;
- The negotiated minimum revenue commitment contained in Article 10, paragraph (1);
- The deletion of the last sentence of Article 13.
- Revisions to Article 16 concerning the entire agreement and survival;
- The renumbering of the article concerning Conditions Precedent as Article 30;
- The identification of the customer’s representative to receive notices under the agreement in Article 31 and the identity of the signatory to the agreement; and
- The renumbering of the article concerning Counterparts as Article 34; and
- Revised Annexes 1 and Annex 2.

The Postal Service does not consider that the specified differences affect either the fundamental service the Postal Service is offering or the fundamental structure of the contract. Nothing detracts from the conclusion that this agreement is “functionally equivalent in all pertinent respects”⁷ to the contract that is the subject of Docket No. CP2016-188.

Conclusion

For the reasons discussed, and as demonstrated by the financial data filed under seal, the Postal Service has established that this GEPS 6 contract is in compliance with the requirements of 39 U.S.C. § 3633. In addition, the contract is functionally equivalent to the GEPS 6 baseline contract that is the subject of Docket No. CP2016-188. Accordingly, the contract should be added to the GEPS 6 product grouping.

Introduction. WHEREAS, the Parties desire to enter into a non-exclusive relationship whereby the USPS will provide certain products and/or services to the Mailer pursuant to the terms and conditions contained herein; WHEREAS, the Parties desire to be bound by the terms of this Agreement; NOW, THEREFORE, in consideration of the mutual promises set forth below, the Parties hereby agree as follows:

The Mailer further understands that any unredacted portion of the Agreement or supporting information will be available on the Commission's public website, www.prc.gov. In addition, the USPS may be required to file information in connection with this Agreement (including revenue, cost, or volume data) in other Commission dockets, including the Commission docket number for the Annual Compliance Report (ACR) for the USPS fiscal year(s) in which this Agreement is in effect. Each ACR docket has a distinct docket number, such as ACR201#, in which "201#" signifies the USPS fiscal year to which the ACR pertains. The Mailer has the right, in accordance with the Commission's rules, to address its confidentiality concerns directly with the Commission. The procedure for making an application to the PRC for non-public treatment of materials believed to be protected from disclosure is found at Title 39, Code of Federal Regulations, Section 3007.22 found on the Commission's website: www.prc.gov/Docs/63/63467/Order225.pdf.

19. Effect of Partial Invalidity. The invalidity of any portion of this Agreement will not and shall not be deemed to affect the validity of any other provision. In the event that any provision of this Agreement is held to be invalid, the Parties agree that the remaining provisions shall be deemed to be in full force and effect.

20. Intellectual Property, Co-Branding and Licensing. The Mailer is allowed the use of the words "Priority Mail Express International[®]," "Priority Mail International[®]," and "First-Class Package International Service[®]," and the acronyms "PMEI[™]," "PMI[™]," and "FCPIS[®]." 24. Suspensions of Mail Service. In the event that a suspension of Priority Mail Express International service, Priority Mail International service, or First-Class Package International Service from the United States to a country would prevent delivery of Qualifying Mail to addressees in that country, the Mailer shall not tender Priority Mail Express International, Priority Mail International, or First-Class Package International Service, as appropriate, to the USPS until service is restored. The annualized minimum commitment for Qualifying Mail set forth in Article 10 shall be recalculated pro rata to reflect the reduction in available service time.

26. No Waiver. The failure of either Party to this Agreement to insist upon the performance of any of the terms and conditions of this Agreement, or the waiver of any breach of the terms and conditions of this Agreement, shall not be construed as thereafter waiving any such terms and conditions, but these shall continue and remain in full force and effect as if such forbearance or waiver had not occurred.

Certification of Prices for the Global Expedited Package Services Contract with
[REDACTED]

I, Virginia Mayes, Manager of Cost Attribution, Finance Department, United States Postal Service, am familiar with the prices for the Global Expedited Package Services Contract with [REDACTED]. The prices contained in this Contract were established by the Decision of the Governors of the United States Postal Service on the Establishment of Prices and Classifications for Domestic Competitive Agreements, Outbound International Competitive Agreements, Inbound International Competitive Agreements, and Other Non-Published Competitive Rates, issued March 22, 2011 (Governors' Decision No. 11-6), which established prices by means of price floor and ceiling formulae.

I hereby certify that the numerical cost values underlying the prices in the [REDACTED] contract are the appropriate costs to use in the formulas and represent the best available information. The prices, resulting in a cost coverage of in excess of the minimum required by the Governors' Decision, exclusive of pickup on demand and international ancillary services fees, are in compliance with 39 U.S.C § 3633 (a)(1), (2), and (3). The prices demonstrate that the Contract should cover its attributable costs and preclude the subsidization of competitive products by market dominant products. International competitive mail accounts for a relatively small percentage of the total contribution by all competitive products. Contribution from Global Expedited Package Services Contracts should be even smaller. The Agreement with [REDACTED] should not impair the ability of competitive products on the whole to cover an appropriate share of institutional costs.

Virginia Mayes

DECISION OF THE GOVERNORS OF THE UNITED STATES POSTAL SERVICE ON THE ESTABLISHMENT OF PRICES AND CLASSIFICATIONS FOR DOMESTIC COMPETITIVE AGREEMENTS, OUTBOUND INTERNATIONAL COMPETITIVE AGREEMENTS, INBOUND INTERNATIONAL COMPETITIVE AGREEMENTS, AND OTHER NON-PUBLISHED COMPETITIVE RATES (GOVERNORS' DECISION NO. 11-6)

March 22, 2011

STATEMENT OF EXPLANATION AND JUSTIFICATION

Pursuant to our authority under section 3632 of title 39, as amended by the Postal Accountability and Enhancement Act of 2006 ("PAEA"), we establish new prices not of general applicability for certain of the Postal Service's competitive service offerings, and such changes in classification as are necessary to implement the new prices.

This decision establishes prices for Domestic Competitive Agreements, Outbound International Competitive Agreements, Inbound International Competitive Agreements, and Other Non-Published Competitive Rates. Domestic Competitive Agreements consist of negotiated service agreements with Postal Service customers for domestic services that are categorized as competitive in accordance with 39 U.S.C. § 3642(b)(1)-(2). Outbound International Competitive Agreements consist of negotiated service agreements with Postal Service customers for outbound international services that are categorized as competitive in accordance with 39 U.S.C. § 3642(b)(1)-(2). Inbound International Competitive Agreements consist of negotiated service agreements with foreign postal operators or other entities for inbound international services that are categorized as competitive in accordance with 39 U.S.C. § 3642(b)(1)-(2). Other Non-Published Competitive Rates consist of rates not of general applicability that are not embodied in contractual instruments, but nonetheless arise from other sources, such as the Universal Postal Convention.

With respect to any product within the above categories, management is hereby authorized to prepare any necessary product description, including text for inclusion in the Mail Classification Schedule, and to present such product description to the Postal Regulatory Commission.

The Postal Accountability and Enhancement Act (PAEA) requires that prices for competitive products must cover each product's attributable costs, not result in subsidization by market dominant products, and enable all competitive products to contribute an appropriate share to the Postal Service's institutional costs. For agreements subject to this Decision, there are hereby established all prices that will cover [REDACTED] costs for the relevant product and that conform in all other respects to 39 U.S.C. §§ 3632-3633 and 39 C.F.R. §§ 3015.5 and 3015.7. As discussed in the accompanying management analysis, the Chief Financial Officer (or his delegate(s)) shall certify that all cost inputs have been correctly identified for prices subject to this Decision and that all prices subject to this Decision conform to this Decision and to the requirements of the PAEA.

No agreement, grouping of functionally equivalent agreements, or other classification authorized pursuant to this Decision may go into effect unless it is submitted to the Postal Regulatory Commission with a notice that complies with 39 U.S.C. § 3632(b)(3). On a quarterly basis, management shall furnish the Governors with a report on all non-published rate and classification initiatives. Not less than once each year, the Governors shall review the basis for this Decision and make such further determination as they may deem necessary. This Decision does not affect postal management's obligation to furnish to the Board of Governors information regarding any significant, new program, policy, major modification, or initiative, or any other matter under 39 C.F.R. § 3.7(d), including where such a matter also falls within the scope of this Decision.

This Decision does not supersede or otherwise modify Governors' Decision Nos. 08-5, 08-6, 08-7, 08-8, 08-10, 08-20, 08-24, 09-5, 09-6, 09-7, 09-14, 09-15, 09-16, 10-1, 10-2, 10-3, 10-6, and 10-7, nor does it affect the validity of prices and classifications established under those Decisions. Management may also continue to present to the Postal Regulatory Commission for its review, as appropriate, rate and classification changes to succeed the minimum and maximum non-published rates in Decision Nos. 10-2 and 10-6.

ORDER

In accordance with the foregoing Decision of the Governors, the prices set forth herein for Domestic Competitive Agreements, Outbound International Competitive Agreements, Inbound International Competitive Agreements, and Other Non-Published Competitive Rates and the changes in classification necessary to implement those prices, are hereby approved and ordered into effect. An agreement is authorized under this Decision only if the prices fall within this Decision and the certification process specified herein is followed. Prices and classification changes established pursuant to this Decision will take effect after filing with and completion of review by the Postal Regulatory Commission.

Management Analysis of Domestic Competitive Agreements, Outbound International Competitive Agreements, Inbound International Competitive Agreements, and Other Non-Published Competitive Rates

This analysis concerns the inbound competitive prices and classifications in the Domestic Competitive Agreements, Outbound International Competitive Agreements, Inbound International Competitive Agreements, and Other Non-Published Competitive Rates (collectively, "competitive instruments"). Competitive instruments are often negotiated with customers and foreign postal operators for better cost coverage, higher overall contribution, and improved service with respect to postal services classified as competitive. They may also arise from other sources, such as the Universal Postal Convention.

The cost coverage for each competitive agreement or grouping of functionally equivalent instruments (collectively, each "product") will be [REDACTED]

The cost coverage for a product equals [REDACTED]

[REDACTED]

[REDACTED]

Each competitive instrument may have multiple price categories and negotiated components. Examples of such categories or components would be Priority Mail, Express Mail, Parcel Return Service, Priority Mail International, Express Mail International, International Priority Airmail, International Surface Air Lift, Inbound Air Parcel Post, Inbound Surface Parcel Post, Inbound Direct Entry, and Inbound International Expedited Services. These or other categories may include other services that the relevant customer or foreign postal operator offers to its customers under differing terms, but that nevertheless are processed and delivered in the same manner within the United States Postal Service's network. Such instruments may also establish negotiated rates for services ancillary to such items and for customized competitive services developed for application solely in the context of the agreement.

Prices established by these formulas should not interfere with competitive products' ability as a whole to comply with 39 U.S.C. § 3633(a)(3), which, as implemented by (39 C.F.R. § 3015.7(c)) requires competitive products to contribute a minimum of 5.5 percent to the Postal Service's total institutional costs. Accordingly, no issue of subsidization of competitive products by market dominant products should arise (39 U.S.C. § 3633(a)(1)).

**CERTIFICATION OF GOVERNORS' VOTE
IN THE
GOVERNORS' DECISION NO. 11-6**

I hereby certify that the Governors voted on adopting Governors' Decision No. 11-6, and that, consistent with 39 USC 3632(a), a majority of the Governors then holding office concurred in the Decision.

APPLICATION OF THE UNITED STATES POSTAL SERVICE FOR NON-PUBLIC TREATMENT OF MATERIALS

In accordance with 39 C.F.R. § 3007.21, the United States Postal Service (Postal Service) hereby applies for non-public treatment of certain materials filed with the Commission in this docket. The materials pertain to an additional Global Expedited Package Services contract that the Postal Service believes is functionally equivalent to previously filed GEPS agreements.

The contract and supporting documents establishing compliance with 39 U.S.C. § 3633 and 39 C.F.R. § 3015.5 are being filed separately under seal with the Commission, although a redacted copy of the contract, a certified statement required by 39 C.F.R. § 3015.5(c)(2) for the contract, and the related Governors' Decision are filed with the Notice as Attachments 1, 2, and 3, respectively.¹

The Postal Service hereby furnishes the justification required for this application by 39 C.F.R. § 3007.21(c) below.

(1) The rationale for claiming that the materials are non-public, including the specific statutory basis for the claim, and a statement justifying application of the provision(s);

Information of a commercial nature, which under good business practice would not be publicly disclosed, as well as third party business information, is not required to be disclosed to the public. 39 U.S.C. § 410(c)(2); 5 U.S.C. § 552(b)(3) and (4). The Commission may determine the appropriate level of confidentiality to be afforded to such information after weighing the nature and extent of the likely commercial injury to

¹ The Postal Service informed the customer for the contract prior to filing a notice that the Postal Service would be seeking non-public treatment of the redacted portions of the contract. The Postal Service also informed the customer for the contract that it could file its own application for non-public treatment of these materials in accordance with 39 C.F.R. § 3007.22.

the Postal Service against the public interest in maintaining the financial transparency of a government establishment competing in commercial markets. 39 U.S.C. § 504(g)(3)(A).² Because the portions of materials filed non-publicly in this docket fall within the scope of information not required to be publicly disclosed, the Postal Service asks the Commission to support its determination that these materials are exempt from public disclosure and grant its application for their non-public treatment.

(2) Identification, including name, phone number, and e-mail address for any third party who is known to have a proprietary interest in the materials, or if such an identification is sensitive, contact information for a Postal Service employee who shall provide notice to that third party;

In the case of a GEPS 6 contract, the Postal Service believes that the parties with a proprietary interest in the materials would be the counterparty to the contract, the PC Postage Provider(s) if the customer intends to use a PC Postage Provider, and foreign postal operators.

The Postal Service maintains that customer identifying information should be withheld from public disclosure. Therefore, rather than identifying the customer for the contract that is the subject of this docket, the Postal Service gives notice that it has already informed the customer, and the PC Postage Provider (if applicable), that have a proprietary interest in the materials for the contract that is the subject of this docket of the nature and scope of this filing and their ability to address their confidentiality concerns directly with the Commission.³

² The Commission has indicated that “likely commercial injury” should be construed broadly to encompass other types of injury, such as harms to privacy, deliberative process, or law enforcement interests. PRC Order No. 194, Second Notice of Proposed Rulemaking to Establish a Procedure for According Appropriate Confidentiality, Docket No. RM2008-1, Mar. 20, 2009, at 11.

³ The Postal Service has provided a blanket notice to PC Postage Providers in light of the fact that these filings are fairly routine. To the extent required, the Postal Service seeks a waiver from having to provide each PC Postage Provider notice of this docket.

The Postal Service employee responsible for providing notice to any third parties with proprietary interest in the materials filed in this docket, if any, is Ms. Kathy L. Lynch, Sales Support Specialist, Global Business, United States Postal Service, 475 L'Enfant Plaza, SW, Room 5425, Washington, DC 20260-4017, whose email address is kathy.l.lynch@usps.gov, and whose telephone number is 202-268-6662.

As for foreign postal operators, the Postal Service recently provided notice to all foreign postal operators within the Universal Postal Union network through an International Bureau Circular issued on January 18, 2016, that the Postal Service will be regularly submitting certain business information to the Commission. Some UPU-designated foreign postal operators may have a proprietary interest in such information. The circular includes information on how third parties may address any confidentiality concerns with the Commission. In addition, contact information for all UPU Designated Operators is available at the following link, which is incorporated by reference into the instant application: http://pls.upu.int/pls/ap/addr_public.display_addr?p_language=AN.⁴

(3) A description of the materials claimed to be non-public in a manner that, without revealing the materials at issue, would allow a person to thoroughly evaluate the basis for the claim that they are non-public;

In connection with its Notice filed in this docket, the Postal Service included a contract, financial workpapers, and a statement for the contract certifying that the agreement should meet the requirements of 39 U.S.C. § 3633(a)(1), (2), and (3). These materials were filed under seal, with redacted copies filed publicly. The Postal Service

⁴ To the extent required, the Postal Service seeks a waiver from having to provide each foreign postal operator notice of this docket. It is impractical to communicate with dozens of operators in multiple languages about this matter. Moreover, the volume of contracts would overwhelm both the Postal Service and the applicable foreign postal operators with boilerplate notices.

maintains that the redacted portions of the contract, related financial information, and identifying information concerning the GEPS customer, should remain confidential.

Redactions appear on page two of Governors' Decision No. 11-6, pages one and two of Attachment A of that Decision, throughout the GEPS 6 contract that is the subject of this docket, and the certified statement concerning the GEPS 6 contract that is the subject of this docket.

With regard to the GEPS 6 agreement filed in this docket some customer-identifying information appears in the redacted sections of the agreement on page 1, in Article 31, in the signature block, and in the footer of the agreement and its annexes. This information constitutes the name or address of a postal patron whose identifying information may be withheld from mandatory public disclosure by virtue of 39 U.S.C. § 504(g)(1) and 39 U.S.C. § 410(c)(2). Therefore, such information is redacted.

Other redacted information in the agreement includes negotiated contract terms, such as the minimum revenue commitment agreed to by the customer, various penalties, and the percentage of cost increase which may trigger a consequential price increase.

The redactions applied to the Governors' Decision and financial workpapers protect commercially sensitive information such as underlying costs and assumptions, pricing formulas, information relevant to the customer's mailing profile, business information of interested third parties, and cost coverage projections. To the extent practicable, the Postal Service has limited its redactions in the workpapers to the actual information it has determined to be exempt from disclosure under 5 U.S.C. § 552(b).

However, in a limited number of cases, narrative passages, such as words or numbers in text, were replaced with general terms describing the redacted material.

To the extent that the Postal Service files data in future filings that will show the actual revenue and cost coverage of the customer's completed contract, the Postal Service will redact in its public filing all of the values included that are commercially sensitive information and will also protect any customer identifying information from disclosure.

(4) Particular identification of the nature and extent of commercial harm alleged and the likelihood of such harm;

If the portions of the contract that the Postal Service determined to be protected from disclosure due to their commercially sensitive nature were to be disclosed publicly, the Postal Service considers that it is quite likely that it would suffer commercial harm. First, revealing customer identifying information would enable competitors to focus marketing efforts on current postal customers that have been cultivated through the efforts and resources of the Postal Service. The Postal Service considers that it is highly probable that if this information were made public, the Postal Service's competitors would take immediate advantage of it. The GEPS 6 competitive contracts include a provision allowing the mailer to terminate its contract without cause by providing at least 30 days' notice. Therefore, there is a substantial likelihood of the Postal Service losing customers to a competitor that targets customers of the Postal Service with lower pricing.

Other redacted information in the contract includes negotiated contract terms, such as the minimum revenue commitment agreed to by the customer, various penalties, sensitive business information including payment processes and mail

preparation requirements, and the percentage of cost increase that may trigger a consequential price increase. This information is commercially sensitive, and the Postal Service does not believe that it would be disclosed under good business practices. Competitors could use the information to assess offers made by the Postal Service to its customers for any possible comparative vulnerabilities and to focus sales and marketing efforts on those areas, to the detriment of the Postal Service. Additionally, other potential customers could use the information to their advantage in negotiating the terms of their own agreements with the Postal Service. The Postal Service considers these to be highly probable outcomes that would result from public disclosure of the redacted material.

The Governors' Decision and financial workpapers filed with this notice include specific information such as costs, assumptions used in pricing formulas, the formulas themselves, mailer profile information, projections of variables, contingency rates included to account for market fluctuations and the exchange risks. Similar information may be included in the cost, volume and revenue data associated with the GEPS 6 agreement that the Commission may require the Postal Service to file after the expiration of this agreement. All of this information is highly confidential in the business world. If this information were made public, the Postal Service's competitors would have the advantage of being able to determine the absolute floor for Postal Service pricing. Unlike its competitors, the Postal Service is required by the Mail Classification Schedule to demonstrate that each negotiated agreement within this group covers its attributable costs. Furthermore, the Postal Service's Governors have required that each contract be submitted to the Commission with a notice that complies with 39 C.F.R. §

3015.5. Competitors could take advantage of the information to offer lower pricing to GEPS 6 competitive contract customers, while subsidizing any losses with profits from other customers. Eventually, this could freeze the Postal Service out of the relevant market. Given that these spreadsheets are filed in their native format, the Postal Service's assessment is that the likelihood that the information would be used in this way is great.

Potential customers could also deduce from the rates provided in the contract, from the information in the workpapers, or from the cost, volume and revenue data that the Commission may require the Postal Service to file after the agreement's expiration, whether additional margin for net profit exists between the contract and the contribution that GEPS 6 competitive contracts must make. From this information, each customer could attempt to negotiate ever-increasing incentives, such that the Postal Service's ability to negotiate competitive yet financially sound rates would be compromised. Even customers involved in GEPS 6 competitive contracts could use the information in the workpapers, or the cost, volume and revenue data associated with the expired agreement, in an attempt to renegotiate their own rates, threatening to terminate their current agreements, although the Postal Service considers this to be less likely than the risks previously identified.

Price information in the contract, the Governors' Decision, the financial spreadsheets, and any cost, volume and revenue data concerning the contract filed after the agreement's expiration consists of sensitive commercial information of the customer. Disclosure of such information could be used by competitors of the customer

to assess the customer's underlying costs, and thereby develop a benchmark for the development of a competitive alternative.

Information in the financial spreadsheets and any cost, volume and revenue data concerning this agreement filed after the expiration of this contract also consists of sensitive commercial information related to agreements between the Postal Service and interested third parties. Such information would be extremely valuable to competitors of both the Postal Service and third parties. Using detailed information about such agreements, competitors would be able to better understand the counterparty's underlying costs, and identify areas where they could adapt their own operations to be more competitive. In addition, competitors of the counterparty could use such information to their advantage in negotiating the terms of their own agreements with the Postal Service. And competitors of foreign postal operators could use the information in the financial spreadsheets to understand their nonpublished pricing to better compete against them.

Information in the financial models may also include sensitive commercial information related to agreements between the Postal Service and PC Postage Providers. Such information would be extremely valuable to competitors of both the Postal Service and the PC Postage Providers. Using detailed information about such an agreement, competitors would be able to better understand the costs of the postage programs used, and identify areas where they could adapt their own operations to be more competitive. In addition, competitors of the PC Postage Providers could use such information to their advantage in negotiating the terms of their own agreements with the Postal Service.

(5) At least one specific hypothetical, illustrative example of each alleged harm;

Identified harm: Revealing customer identifying information would enable competitors to target the counterparty or its customer for sales and marketing purposes.

Hypothetical: The identity of the customer that signed a GEPS 6 contract is revealed to the public. Another delivery service has an employee monitoring the filing of GEPS 6 competitive contracts and passing along the information to its sales function. The competitor's sales representatives could quickly contact the Postal Service's customer and offer the customer lower rates or other incentives to terminate its contract with the Postal Service in favor of using the competitor's services.

Identified harm: Public disclosure of negotiated terms of the agreements could be used by competitors and potential customers to the Postal Service's detriment.

Hypothetical: Customer A signs a GEPS 6 competitive contract that is filed with the Postal Regulatory Commission. At the same time, Customer B is considering signing a GEPS 6 competitive contract and has no real concern about the penalty provision, which calls for Customer B to pay up to \$10,000 in penalties if it fails to meet its minimum volume commitment before termination of the agreement. The information about Customer A's penalty provision is made public. Customer A's agreement calls for a \$5,000 maximum payment as penalty. Customer B sees the information. Customer B then insists that it will not agree to be obligated to pay any more than Customer A was obligated to pay, diminishing the Postal Service's bargaining leverage. The same rationale applies to commitment levels and price adjustment terms.

Identified harm: Public disclosure of the pricing included in the agreement would provide potential customers extraordinary negotiating power to extract lower rates.

Hypothetical: Customer A's negotiated rates are disclosed publicly on the Postal Regulatory Commission's website. Customer B sees the rates and determines that there may be some additional profit margin between the rates provided to Customer A and the statutory cost coverage that the Postal Service must produce in order for the agreement to be added to the competitive products list. Customer B, which was offered rates identical to those published in Customer A's agreement, then uses the publicly available rate information to insist that Customer B must receive lower rates than those the Postal Service has offered it, or Customer B will not use the Postal Service for its expedited package service delivery needs.

Alternatively, Customer B attempts to extract lower rates only for those destinations for which Customer B believes that the Postal Service is the low-cost provider among all service providers. The Postal Service may agree to this demand in order to keep the customer's business overall, which the Postal Service believes will still satisfy total cost coverage for the agreement. Then, the customer uses other providers for destinations that are different than those for which the customer extracted lower rates. This impacts the Postal Service's overall projected cost coverage for the agreement, such that the Postal Service no longer meets its cost coverage requirement. Although the Postal Service could terminate the contract when the Postal Service first recognizes that the customer's practice and projected profile are at variance, the costs associated with establishing the contract, including filing it with the Postal Regulatory

Commission, would be sunk costs that would have a negative impact on the GEPS 6 Contracts competitive product overall.

Identified harm: Public disclosure of information in the financial workpapers would be used by competitors and customers to the detriment of the Postal Service and foreign postal operators.

Hypothetical: A competing delivery service obtains a copy of the unredacted version of the financial workpapers from the Postal Regulatory Commission's website. The competing delivery service analyzes the workpapers to determine what the Postal Service would have to charge its customers in order to meet the Postal Service's minimum statutory obligations for cost coverage and contribution to institutional costs. The competing delivery service then sets its own rates for products similar to what the Postal Service offers its GEPS 6 competitive contract customers under that threshold and markets its ability to guarantee to beat the Postal Service on price. By sustaining this below-market strategy for a relatively short period of time, the competitor, or all of the Postal Service's competitors acting in a likewise fashion, would freeze the Postal Service and associated foreign postal operators out of the markets for which the GEPS 6 competitive contract product is designed.

Identified harm: Public disclosure of information in the contract and the financial workpapers would be used by the counterparty's and its customer's competitors to its detriment.

Hypothetical: A firm competing with the customer obtains a copy of the unredacted version of the contract and financial workpapers from the Postal Regulatory Commission's website. The competitor analyzes the prices and the workpapers to assess the customer's underlying costs, volumes, and volume distribution for the corresponding delivery products. The competitor uses that information to (i) conduct market intelligence on the customer's business practices and (ii) develop lower-cost alternatives using the customer's costs as a baseline.

Identified harm: Public disclosure of information in the contract and financial workpapers would be used by the competitors of the third party to the detriment of the Postal Service and/or the counterparty to the agreement.

Hypothetical: A firm competing with the interested third party obtains a copy of the unredacted version of the contract and financial workpapers from the Commission's website. The firm uses the information to assess the third party's revenue sources and growth opportunities, and thereby develop benchmarks for competitive alternatives. In addition, disclosure of such information could provide leverage to other parties in their negotiations with the Postal Service concerning financial arrangements that they may make with the Postal Service in the future.

Identified harm: Public disclosure of any cost, volume and revenue data concerning this agreement that the Commission may require the Postal Service to file after the contract's expiration would give competitors a marketing advantage.

Hypothetical: A competitor could use any cost, volume and revenue data associated with this agreement, which the Commission may require the Postal Service to file in this docket after this agreement's expiration, to "qualify" potential customers. The competitor might focus its marketing efforts only on customers that have a certain mailing profile, and use information filed after the contract's expiration to determine whether a customer met that profile.

Identified harm: Public disclosure of information in a GEPS 6 contract involving postage payment through a PC Postage Provider, and of information in related financial workpapers, would be used by the competitors of the PC Postage Provider to the Postal Service and/or the PC Postage Provider's detriment.

Hypothetical: A firm competing with the customer's PC Postage Provider obtains a copy of the unredacted version of a GEPS 6 contract involving postage payment through a PC Postage Provider, and financial workpapers, from the Commission's website. The firm uses the information to assess the PC Postage Provider's revenue sources and growth opportunities, and thereby develop benchmarks for competitive alternatives. In addition, disclosure of such information could provide leverage to other PC Postage Providers in their negotiations with the Postal Service concerning financial arrangements that PC Postage Providers make with the Postal Service in the future.

(6) The extent of protection from public disclosure deemed to be necessary;

The Postal Service maintains that the redacted portions of the materials filed non-publicly should be withheld from persons involved in competitive decision-making in the relevant market for parcel and expedited services, as well as their consultants and attorneys. Additionally, the Postal Service believes that actual or potential customers of the Postal Service for this or similar products should not be provided access to the non-public materials.

(7) The length of time deemed necessary for the non-public materials to be protected from public disclosure with justification thereof;

The Commission's regulations provide that non-public materials shall lose non-public status ten years after the date of filing with the Commission, unless the Commission or its authorized representative enters an order extending the duration of that status. 39 C.F.R. § 3007.30.

(8) Any other factors or reasons relevant to support the application.

None.

Conclusion

For the reasons discussed, the Postal Service asks that the Commission grant its application for non-public treatment of the identified materials.
